FLIP THE POWER

CLUB BUBBLES

CLUB BUBBLES

HEY! How'd you get so fresh, so clean?

Can't you tell I'm energy efficient? I save on water and utilities. **Wanna go for a spin?**

Hey girl, I'm Callow, **let me spin your cycle...**

I'm Linden, can I buy you some suds?

I guess my settings are a bit rusty...I must be all **washed up...**

I'm Newington, if you give me a chance, **I'll be extra delicate.**

She told me to **empty my lint trap!**

She says she doesn't date guys who run **half full!**

Those boys are wasting their money and energy

She's the real deal, **she probably likes a clothes line...**

I thought I was hot...

Chill out, it's all in the way you wash it.

Any Washer can be more energy efficient!

Wash in cold water to save money and energy.

Wash + Dry with a full load!

Use a clothes line, instead of drying.

Did you know?

Washing in cold water can save you **\$100 a year!**

Hanging clothes out to dry can save you **\$25/month** and extend the life of your clothing.

FLIP THE POWER is brought to you by **Reservoir Hill Improvement Council.**
